I don't get sick anymore

By Deborah Larson on October 21, 2016

I've had problems for YEARS getting sick with sinus and upper respiratory infections. It started with a cold and always built into something more. With the MANY benefits of cayenne, I'm feeling much better. My nose isn't constantly plugged anymore. I have limited post nasal drip, and I can sleep all night and breathe through my nose. This has definitely been a life saver for a long time

You can definitely feel this when you swallow it. I recommend taking after a meal, to soften the burn. If you take it on an empty stomach, you will feel the burn. It has helped with digestion for sure.

Like to include extra Cayenne in our diet for heart/circulation health. Very helpful when the sinuses are blocked during cold season. Opens them right up. Good to have on hand for emergencies ie infarction or as a hemostatic agent. Just need to start slowly and work up to the suggested dose and take with food to avoid the heartburn. Now brand has just Cayenne and the gelatin cap. No stearate, silica, or any of those extra ingredients you don't need or want.

This supplement is a key favor in keeping my blood pressure down naturally and erasing headaches. Make sure you drink extra water and take with food or you will feel the heat into your throat.

If you take it on an empty stomach it can give you cheat discomfort like bad heartburn. Take it with food and it's not a problem. It will bump up your heart rate, so don't take it before bed or it can be hard to sleep. But before a work out and you will feel like you have more energy and in theory, you will burn more calories and build muscle faster.
